PROFESSIONAL SUMMARY

While I leverage AI tools to accelerate development (Vibe Coding), I possess a solid foundation that allows me to trace code and perform meticulous code reviews. I fully understand every line within the project and can precisely fine-tune the logic to align with business requirements.

EDUCATION

Bachelor of Computer Engineering
Mae Fah Luang University
2021 - Present

High School Diploma
Satit Valaya Alongkorn
2019 - 2021

WORK EXPERIENCE

Full-Stack Junior Developer

SoftSquare
Jan 2026 - Apr 2026

Worked as a Full-stack Web Developer leveraging ASP.NET, Angular, and TypeScript, while simultaneously managing various freelance projects. Experienced in developing robust web applications using the ASP.NET and Angular frameworks.

Full-Stack Developer

Freelance
2025 - Present

Developed websites and mobile applications using Next.js, React Native, and Tailwind CSS for multiple clients.

Full-Stack Website Developer at MFU

Student at MFU
Aug 2024 - Nov 2024

During my university years, I served as a Full-Stack Developer for a web and mobile application project. I was responsible for developing a Room Booking System, overseeing both frontend and backend implementation.

SKILLS

Languages:
